SCA: Adult Reentry Education, Employment, Treatment, and Recovery Outcomes Program

Purpose

The purpose of the program is to enhance the ability of corrections systems to address the substance use treatment needs of offenders as well as expand education and employment programs that emphasize strong partnerships with corrections, parole, probation, education, workforce development, and reentry service providers. This will work to reduce recidivism, promote recovery, and enhance employment prospects for incarcerated adults reentering the workforce. These partnerships can support the establishment and improvement of academic and vocational education programs and career training programs available in prisons and jails. Overall, these efforts will improve public safety and public health. Programs should be focused on the 3-year period before release, as well as upon transition and reentry into the community.

Summary Information

Pre-release Access

- Participants are expected to be screened, assessed, and identified for program participation pre-release.
- During the post-release phase of the reentry program, participants will receive case management services and will be connected to evidence-based programming designed to assist them in making a safe and successful transition from prison or jail to the community. Where feasible, case management services and evidence-based programming should begin during the pre-release phase.

Summary Information

Correctional Partner Memorandum of Agreement

- Nonprofit organizations and noncorrectional government applicants must include as an attachment a memorandum of agreement or understanding (MOA or MOU) that clearly demonstrates an established, collaborative relationship between the applicant and the correctional agencies that:
 1. oversee the specific facility or facilities from which the applicant proposes to recruit the target reentering population.
 2. oversee community corrections (probation and/or parole) for the target population.

Summary Information

Correctional Partner Memorandum of Agreement (Continued)

- The MOAs/MOUs must include the following information:
 - The roles and responsibilities for staff from both agencies involved in the program.
 - Terms of access to the correctional facility or facilities for program staff. (If applicants are unable to conduct in-reach into correctional facilities, the application should explain the reason(s) that such access is not practicable.)
 - Information on pre-release programming and interventions provided by the correctional agency to each participant.
 - The data elements and performance measures that the partnering agencies will provide—or assist the grantee in obtaining—for the purpose of measuring the impact of grant activities.

Additional Eligibility Requirements

To advance Executive Order 13929 Safe Policing for Safe Communities, the Attorney General determined that all state, local, and university or college law enforcement agencies must be certified by an approved, independent credentialing body or have started the certification process to be eligible for FY 2021 DOJ discretionary grant funding. The certification requirement also applies to proposed subawardees.

To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency's use of force policies adheres to all applicable federal, state, and local laws; and (2) the agency's use of force policies prohibits chokeholds except in situations where use of deadly force is allowed by law.
